

Multiplicar por potencias de diez (número faltante)

Nombre: _____

Fecha: _____ Puntuación: _____

$$4,083 \times \underline{\hspace{2cm}} = 408.3$$

$$8,951 \times \underline{\hspace{2cm}} = 8951$$

$$7,459 \times \underline{\hspace{2cm}} = 7459$$

$$9,9 \times \underline{\hspace{2cm}} = 99$$

$$4,604 \times \underline{\hspace{2cm}} = 460.4$$

$$2,978 \times \underline{\hspace{2cm}} = 297.8$$

$$2,74 \times \underline{\hspace{2cm}} = 274$$

$$5,112 \times \underline{\hspace{2cm}} = 511.2$$

$$8,633 \times \underline{\hspace{2cm}} = 863.3$$

$$4,164 \times \underline{\hspace{2cm}} = 416.4$$

$$10,313 \times \underline{\hspace{2cm}} = 1031.3$$

$$3,092 \times \underline{\hspace{2cm}} = 30.92$$

$$5,202 \times \underline{\hspace{2cm}} = 520.2$$

$$9,722 \times \underline{\hspace{2cm}} = 972.2$$

$$4,667 \times \underline{\hspace{2cm}} = 4667$$

$$5,619 \times \underline{\hspace{2cm}} = 56.19$$

$$10,984 \times \underline{\hspace{2cm}} = 10984$$

$$4,538 \times \underline{\hspace{2cm}} = 4538$$

$$8,899 \times \underline{\hspace{2cm}} = 8899$$

$$6,523 \times \underline{\hspace{2cm}} = 6523$$
